### NOTICE REGARDING DENTAL EXAMINATION

DATE: \_\_\_\_\_

To the parent or guardian of: \_\_\_\_\_ Grade \_\_\_\_\_

Dental caries is a progressive disease often without pain or discomfort until the decay process has reached the pulp or nerve of the tooth. Unlike most other diseases affecting hard tissue, dental caries is not self-limiting. Unless corrected, it progresses until the affected tooth is lost, or causes an infection in another part of the body.

A visual inspection has indicated that your child may be in need of immediate dental care.

Please take your child to your family dentist as soon as possible and notify the school nurse when the appointment has been made.

Please ask your dentist to return the Examiner's Report as soon as any necessary work has been completed. Thank you for your prompt attention to this matter.
